MFT1735
Multifunction Tester

- Simple colour-coded test selection and large clear backlit display for ease of use
- Two and three wire non-trip loop testing for RCD protected circuits
- Internal memory and Bluetooth® communications
- Type-B RCD and 3-phase RCD testing for industrial applications with no Earth
- 3-terminal earth test and stakeless testing for spike resistance measurement **
- EN61010 CAT IV safety ratings and tough IP4 case

**

DESCRIPTION
The MFT1735 instrument is designed for testing low voltage electrical installations to BS 7671. It provides all the tests required to complete the necessary electrical certification for industrial, commercial and domestic fixed wiring installations, including:

- System voltage and frequency measurement (TRMS).
- Insulation test at 100 V*, 250 V, 500 V and 1000 V
  - Including input protection against live circuits up to 600 V even when insulation test is locked-on
- Continuity resistance at 200 mA or 15 mA
  - Automatic – no need to press TEST so leaving both hands free to hold probes.
- Resistance range up to 100 kΩ  With fast continuity buzzer and selectable thresholds
- Non-trip loop test
- Earth loop test
- 2 and 3 wire non-trip range
- 2 wire Hi current including phase to phase
- Prospective fault current measurement
- Up to 20 kA
- RCD testing including:
  - Type AC, A, S, B* and programmable RCDs
  - 1/2 x I, 1 x I and 5 x I
  - 3-phase RCDs
  - Fast ramp test
  - Auto-test routine
  - Fault (Touch) voltage display

All instruments are IEC 61010 CAT IV 300 V rated for connection to low voltage systems with no protective device, so safe for connection anywhere on the system up to the source transformer without risk of damage from large transient spikes.

The unique modern styling allows it to be operated while stood on the floor, a ladder-shelf or platform, hung around the neck or hand-held. Dual TEST and LOCK buttons – one pair at each end – make the testers easy to operate with either the left or right hand.

Quick to pick up and use, the rotary controls are colour coded to make range selection easy and fast. They also reduce the chance of using the wrong function or range. The large crystal clear backlit display uses the patented Megger digital/analogue arc, providing indication of fluctuating readings while the dual digital readout shows precise values of key measurements simultaneously with the test parameters, such as the output voltage on insulation testing as well as the resistance value in MΩ.
Visible and audible safety warnings are paramount when testing high-energy systems, and the MFT1735 range includes full input protection and safety warnings when a hazardous voltage is present. If live voltages exist on a circuit during insulation or continuity testing, the voltage is displayed on the screen. If this voltage exceeds a safe level, further testing is inhibited and a warning beep sounds.

The MFT1735 features internally rechargeable batteries and charger with a charge time of less than 4 hrs, so reducing the cost of ownership.

Fully compliant with all requirements of IEC 60364 derived standards including BS 7671, the new MFT includes all the latest measurement technology in a lightweight compact design and fully protected and usable on single phase and 3 phase installations.

New measurement functions include two and three wire non-trip loop test technology for RCD protected circuits, comprehensive testing of RCDs including type B and the latest clamp-on techniques for earth testing.

The MFT1735 includes built in memory and Bluetooth® communications for downloading of memory using Megger Download Manager (supplied) for simple form filling of test results using the optional Megger PowerSuite® software.

The new MFT1735 has been designed for tough environments and ultimate reliability. Features include a rubber over mould for extra protection and grip, IP54 protection against dust and water and an EN61010 Cat IV safety rating. Its class leading input protection ensures the new MFT can withstand accidental misuse and voltage transients when other testers can’t.

All this in an intuitive and easy to use instrument with no hidden menus or complicated screens. Tests are easily selected using the colour coded rotary switches with results clearly displayed on the high contrast dual measurement backlit display.

Included with the instrument are a standard 3-wire leadset and a mains test lead, a switched probe for fast and easy testing, a full 12-month calibration certificate and warranty upgradeable to 3 years. The MFT is supplied in a robust moulded case with plenty of additional space for optional extras like a few tools and the earth electrode test kit, comprising 2 spikes and 3 long test leads.

**SPECIFICATIONS**

**Insulation test**

- Output voltage: -0% +20% at rated load or less
- Voltage display: ±3% ±2 digits ±0.5% of rated voltage
- Short circuit current: 1.5 mA nominal test current
- Test current on load: 1 mA at min pass values of insulation

**Measurement accuracy**

**Resistance and continuity**

- 0.01 Ω ~ 99.9 Ω: ±2% ±2 digits
- 100 Ω ~ 99.9 kΩ: ±5% ±2 digits
- Open circuit voltage: 5 V ±1 V
- Test current (0 Ω ~ 2 Ω): 205 mA ±5 mA
- 15 mA ±5 mA (user selectable)

**Loop test**

- Live to earth supply: 48 V ~ 280 V (45 Hz ~ 65 Hz)
- Live to live supply: 48 V ~ 500 V (45 Hz ~ 65 Hz)
- L-N, L-L tests: ±5% ±3 digits
- L-E tests*: ±5% ±5 digits ± noise margin
- 40.0 Ω ~ 999 Ω: ±10% ±5 digits
- Display range: 0.01 Ω ~ 999 Ω
- Live to earth PFC range: 20 kA
- Live to live PSCC range: 20 kA

**RCD tests**

- Resolution: 0.01 Ω
- Current: 45 mA or 4.5 mA
- Noise rejection: 20 V pk/pk (7 V rms).
- Max probe resistances Rp & Rc:
  - 100 kΩ @ 50 V
  - 5 kΩ @ 25 V
- 2 & 3 pole method (0.01 Ω ~ 1.999 kΩ):
  - ±2.0% ±3 digits
- ART method (1.00 Ω ~ 1.999 kΩ):
  - ±5.0% ±3 digits**
- Stakeless method (1.00 Ω ~ 199 Ω):
  - ±7.0% ±3 digits**

**Supply measurement**

- Voltage: 10 V ~ 600 V (15 ~ 400 Hz) True RMS
  - ±3% ±1 V ±2 digits
- Phase rotation indication: L1-L2-L3 & L1-L3-L2
- Frequency: 15 Hz ~ 99 Hz
  - ±0.5% ±1 digit
- 100 Hz ~ 400 Hz
  - ±2.0% ±2 digits
- Frequency resolution: 0.1 Hz

**Power supply**

- MFT1735: 1.2 V NiMH (rechargeable 6 cells supplied) Mains charger for on-board re-charging (4 hours typical) 12 V car charger (cigar lighter lead - optional)
Earth / ground test

Resolution 0.01 Ω
Current 0.45 mA or 4.5 mA
Noise rejection 20 V pk/pk (7 V rms).
